An extended family returns for a follow-up conference about Joseph, who had been placed with relatives when his mother went to prison for drug abuse. Now released and in recovery, Joseph's mother is frustrated at the resistance of his caregivers to allow her, or even other members of the family, to have regular visitation. Joseph is acting out and is very angry and confused. His relative caregivers believe that it is in his best interest to withhold visits when he misbehaves. Family members have come from hundreds of miles away to try to resolve these complex issues in a volatile, emotional, and heartfelt session. The conference has been shortened to 75 minutes and a brief narration has been added to clarify the situation. It may be viewed as a whole, or started and stopped to promote discussion among professionals interested in the subject, especially those who are training to run family group decision meetings. Intended for professional training.	1020

R DVD RJ507.A29 2005		Working with Children Who Have Experienced Neglect or Abuse.	Washington, D.C. : American Psychological Association, 2005	In this dvd program, Dr. Wes Crenshaw demonstrates his approach to working with children who have been neglected or sexually or physically abused. Because most offenders in cases of abuse or neglect are within the child's family, this approach by necessity treats the entire family system, and the goal of therapy is to recontextualize the act of injustice, in both the offender's and the victim's minds. In this session, Dr. Crenshaw works with three sons who were neglected and abused by their mother, who is addicted to drugs. Dr. Crenshaw listens to the painful experiences of this family and then helps the boys and their father to place the mother's behavior within the broader context of their lives.	1684
